

Cheyenne Indian names

latest update: September 6, 2021

(To view the names in Cheyenne alphabetical order, [click here](#). It is best not to write the š sound as "s" because s and š are different sounds in Cheyenne. It's fine to write the š sound as "sh" for obituaries or other publications that do not have the š letter. This list uses the official Northern Cheyenne spelling. You may prefer to use other spellings which are easier to read. Some simpler spellings are in parentheses in this list. The symbol > indicates the person on the left of the symbol who gave their name to the person on the right of the symbol.
